## Series 6900 Garden Window

Bring the natural beauty of an outdoor garden directly into your home, while providing the perfect habitat for your favorite plants. The 6900 Garden Window will bring new depth and dimension to any room by adding an energy efficient alcove that's perfect for plants. In addition, it lets in more light, and expands usable living space. Your existing plants will benefit from the added sunlight, while you'll visually enhance and physically increase your room, for more comfortable living.

# Garden Window

**Beauty, Depth and Dimension** - Enjoy a beautifully designed projecting window that gently extends from your home, seamlessly blending the outside environment with your favorite room. The 6900 does more than an ordinary window; it reaches out from the room and brings light into your home from many directions.

**Carefree Functionality** - Whether you choose to display collectibles, provide a sunny location for your plants, or expand the view into your yard, the 6900 meets your needs in a variety of ways. Each component is specifically designed as an integral part of this unique window and collectively provides superior strength and energy efficiency. A sturdy 1-1/4" wood frame is protected inside and out with a durable vinyl laminate. Individual windows are fusion-welded to be weather-tight and energy efficient. Vinyl is an exceptional insulator and virtually effortless to maintain. Vinyl will never chip or flake or peel, therefore never needs painting. With a little soap and water, your window will look brand new for years to come.

**Skylight Appeal Plus Ventilation** - The 6900 comes with a glass roof that functions much like a skylight in your wall, letting in light from above and allowing a more expansive view of the outdoors. Weather-tight when closed, a fold-away operator handle smoothly opens the front awning panel when ventilation is desired.

**Limited Lifetime Warranty**

## Glass Options

Silver Line® offers several types of glass for just about any requirement. From energy savings, to sound control, to privacy, one of our many choices is sure to meet your needs.

**Energy Saver LoE<sup>2</sup> Glass** - Reduces heating and cooling costs, while keeping your home more comfortable all year long. Also reduces fading to window treatments, furniture and floor coverings caused by harmful UV rays.

### Other Glass Choices Include:

- Tempered Glass
- LoE<sup>2</sup> Glass/Argon Gas

## Color Options

All Silver Line vinyl windows are available in white and beige. The color is consistent throughout the vinyl window frame and sash, making scratches virtually invisible.
